Executive Summary

Belmont Ties for Best City in California for Solar Installation

This week a report from Complete Solar, a local solar system installation company, announced that Belmont scored a 100% on their California Solar Ease Index, which placed the City tied for first in the state. The score is a combination of the time it takes to get a permit and the associated fees.

Timely permits make it easier to plan installations around good weather, save homeowners money, and encourage people to use solar energy. Because solar installations have to be completed in good weather, a slow permitting process can have a compounding effect on the time it takes to install the solar equipment. Also, Belmont does not charge for photo voltaic (solar) permits. The City of Belmont's Permit Center prides itself on providing excellent customer service and assisting with timely permitting for these types of solar installations is very important to them. For more on this ranking click [here](#).

Belmont Fire Personnel Deployed to Wildfire in Northern California

On the morning of August 4th, 2014 Belmont firefighters were deployed to assist with a large vegetation fire, known as the Lodge Lighting Complex Fire in Mendocino County. In addition to Belmont firefighters, engines from San Carlos, Woodside, Menlo Park and CAL Fire were deployed as part of a southern San Mateo County Fire Strike Team.

Upon their arrival crews were tasked with cutting fire lines in preparation for backfiring operations while working 24-hour operational periods. This work was extremely labor intensive and done over a period of nine days. Fire personnel were released from the incident the morning of August 13th and arrived back in San Mateo County that evening.

To date the fire has burned over 12,000 acres and the deployment of these firefighting resources shows the true value of having a statewide mutual aid system in California.

Public Works Promotions

The Public Works Department is pleased to announce the promotions of Arno Jacobi, John Jacobi and Brandon Tyler to Lead Maintenance Worker.

Arno has recently been promoted to Lead Maintenance Worker for the Street Division in Public Works. Arno was hired in 2003 as a Maintenance Worker I for the Public Works Department. In 2004, Arno was promoted to the Maintenance Worker II and in 2008, to Equipment Operator where he supported the Streets, Sewer, and Storm Drain Divisions. Arno is Grade III certified for Collection System Maintenance with the California Water Environment Association.

Arno grew up in Belmont attending local public schools (Nesbit Elementary, Ralston Middle, and Carlmont High School). He worked for his family's Belmont furniture manufacturing business until it closed in 2003. Arno lives with his wife Lori, and daughter Chanda and they are in the process of remodeling their home and when the opportunity arises he squeezes in working on his classic cars for fun. Please join us in congratulating Arno on his promotion.

John has recently been promoted to Lead Maintenance Worker for the Sewer Utility Division in Public Works. John has worked in the Sewer Division for nine years. He started out as a Maintenance Worker I for the Public Works Department in 2004. In 2005, John was promoted to Maintenance Worker II assisting with the Sewer Video Van program. John is Grade III certified for Collection System Maintenance with the California Water Environment Association, and is National Association of Sewer Service Companies certified in pipeline assessment, lateral assessment and manhole assessment. Born and raised in Belmont and graduated from Carlmont High School. For fun John enjoys restoring 60's - 70's era muscle cars. Congratulations John on your promotion.

Brandon has recently been promoted to Lead Maintenance Worker for the Drainage and Water Pollution Control Division in Public Works. Brandon has been an employee for 13 years hired as a Maintenance Worker I for the Public Works Department. In 2004, Brandon was promoted to an Equipment Operator operating the CCTV van for the past nine years supporting both the Sewer and Storm Drain Divisions. Brandon is Grade I certified for Collection System Maintenance with the California Water Environment Association, and is National Association of Sewer Service Companies certified in pipeline, lateral, and manhole assessments.

Brandon was born in San Diego, grew up in Hot Springs, Arkansas, and attended the University of Arkansas. Brandon is married to his wife Amie and has two children, Cameron age seven and Benjamin age two. After work Brandon enjoys riding bicycles and smoking various meats on the grill. Congratulations Brandon on your promotion.

Welcome Jose Ortiz

Public Works Department is pleased to welcome our newest employee, Jose Ortiz, to Public Works Services. Jose joined Public Works as a temporary employee in July 2013 working in both Traffic and Sewer Operations. Jose will be serving as a Maintenance Worker II, supporting the Traffic and Electrical Division. He is a native Californian, born in Palo Alto, raised in Menlo Park, and currently lives in San Mateo with his wife Maureen, and his yellow Labrador. Jose has two daughters Mariah, graduating from SFSU this year, and Reyna, a junior at UCLA. Jose enjoys cycling and is a proud season ticket holder for the San Francisco Giants.

Welcome to Public Works Jose.

Employment Opportunity

The City is currently accepting applications for
Equipment Operator – CCTV

Assignment. This recruitment is open to current City of Belmont employees and the public.

Application Filing Period: August 14 - August 28, 2014 – or - when 100 applications have been received.

For more information please visit the following link: [Equipment Operator - CCTV](#)

Park Activities

PUBLIC WORKS WEEKLY HIGHLIGHTS

ENGINEERING

Update- 2014 Summer Pavement Maintenance Slurry Seal Project

Construction for the 2014 [Slurry Seal Project](#) is in progress.

Last weeks scheduled slurry seal has been completed. The contractor is in process of laying out the proposed striping.

Scheduled work and traffic impacts are as follows:

Work type	Location(s)	Traffic Impact	Date	Time
Roadway Striping	Ralston Avenue (Between Cipriani Blvd. and Christian Dr.)	Through traffic remains open, expect delays	August 18 th And August 20 th	9:00am-3:00pm
Roadway Striping	Hiller Street (Between Cambridge St. and Ralston Ave.)	Through traffic remains open, expect delays	August 20	9:00am-3:00pm
Roadway Striping	Alameda de las Pulgas between (Covington Road north and San Mateo city limits)	Through traffic remains open, expect delays	August 20	9:00am-3:00pm
Roadway Striping	Hillcrest Drive (Entire road)	Through traffic remains open, expect delays	August 20	8:00am-5:00pm
Roadway Striping	Belmont Canyon Rd (Between Hillcrest Dr. and Ralston Ave.)	Through traffic remains open, expect delays	August 20	8:00am-5:00pm

Legend

SLURRY SEAL

**Storm Division**

- Swept 114 curb miles and collected 10.51 tons of debris during regular sweeping
- Inspected and cleaned 2 storm pump stations
- Twice weekly inspection of Water Dog Lake Trail including the V-ditch, the spillway, the dock, and emptied 8 trash cans
- Built a temporary fence at the outflow of O'Neill Slough
- Vacuumed and washed down 19 storm drain inlets
- Inspected 42 storm drain inlets, 10 storm manholes, and 2 creek inlets
- Staff member attended the San Mateo Countywide Water Pollution Prevention Program Symposium

Sewer Division

- Inspected and cleaned 11 sewer pump stations
- The service truck (205) responded to 4 service calls
- Jetted (cleaned) 1,540 feet of sewer main
- The Closed Circuit TV (CCTV) van videoed 400 feet of sewer main
- Daily cleaning of the flushable wipes trap at the Ralston Ranch Pump Station
- Videoed 3 service laterals
- Attended the demonstration of a new Vactor combination truck
- Conducted sewer main repair on the 2700 block of Barclay Way

Traffic Operations

- Weekly visual inspections for preventative maintenance of intersections
- Visual inspection of lighted crosswalks
- Fabricated 27 signs
- Marked out USA tag, entire length of El Camino Real within City limit
- Marked out USA tag, entire length of Old County Road within City limit
- Attended Striping/Parking Lot training
- Repainted 30' of red curb on Yorkshire
- Ralston banners-1 down
- Removed graffiti from sign at 1 location
- Trimmed trees/bushes at 2 locations
- Relocated 30 MPH sign on Old County Road
- Covered 41 aluminum sign blanks with vinyl for new signs
- Repaired 5 street lights
- Created priority list for wood pole replacement
- Began gathering data required to order replacement poles

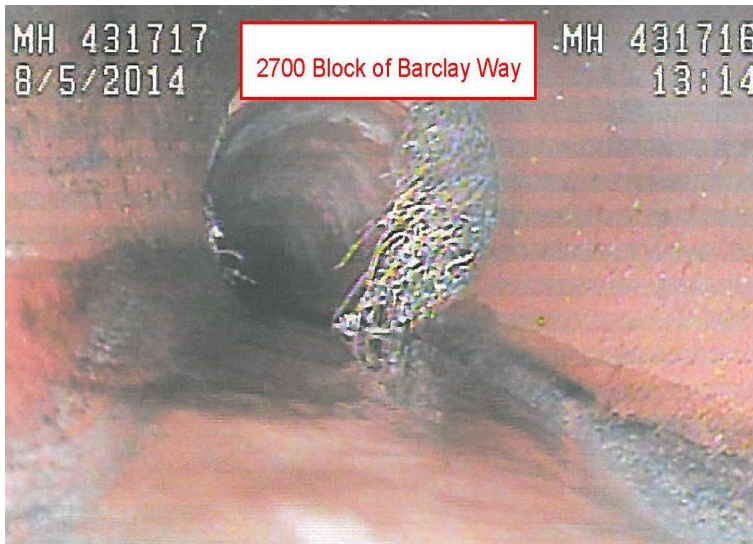

- Re-lamped 17 bike bridge lights
- Installed identification numbers on center bore wood street light poles
- Investigated street light power problem at St. James and Rinconada

Streets Division

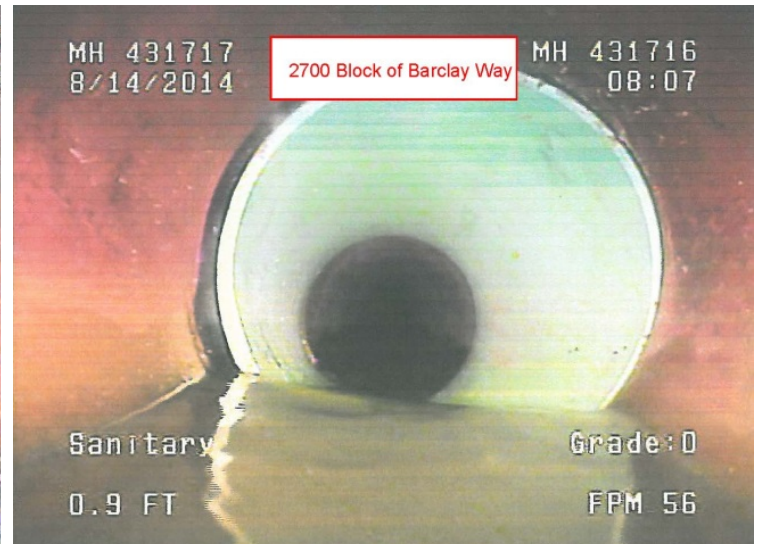

- Marked out USA tag, entire length of El Camino Real within City limit
- Marked out USA tag, entire length of Old County Road within City limit
- Marked out 14 additional locations for Underground Service Alerts
- Crack sealed 1,968 feet on Sunnyslope, Lane and Encline
- Set sign pole sleeve on Maywood at Ladera
- Saw cut at 6 locations in preparation for dig out and paving
- Trimmed tree on Alameda De Las Pulgas at Arbor for sight distance
- Filled 3 pot holes at 2 locations
- Removed graffiti at one location

Sewer Main Defect Prompts Repair

While conducting routine sewer line video inspections, the Public Works Sewer Maintenance staff found an offset in a 3-foot section of the sewer main on the 2700 block of Barclay Way. Crews performed the sewer main repair for this defect on Tuesday, August 12th. Staff continually performs routine maintenance of the City's sewer mains, and is an important element of an effective overall strategy to maintain sewer systems.

Sewer Mainline Before

Sewer Mainline After Repair

Does Your Property Have A Hillside That Erodes Into The Street Gutter?

Dirt and soil from a steep hillside or embankments can end up in the street gutter, ultimately ending up in the storm drain. Why is this bad?

Sediment contains harmful pollutants and when it ends up in the gutter, it eventually makes it to the City's storm drains eventually end up in the San Francisco Bay. Sediment and other pollutants can have a negative impact on the environment and wildlife.

Ways you can help~

- Keep your gutter clear and free from dirt and sediment.
- For properties with hillsides and slopes, installing retaining walls, laying down rolled netting, and selecting deep-rooted groundcovers. As always, try to use drought tolerant plants to reduce water consumption. Your local Landscape contractor is a good resource for resolving erosion control issues.

Remember...Only rain in the storm drain!

Hillside with no erosion control

Netting for erosion control

Hillside landscaping

What Will You Find This Year?

Each year the City's Public Works Department and local community supporters participate in the State's largest volunteer event Coastal Cleanup Day. Last year dedicated volunteers collectively gathered 560 pounds of trash and recyclables from Belmont Creek, O'Neill Slough, Water Dog Lake, and East Laurel Creek. The following are actual items found in the creeks and on the banks of Belmont waterways during cleanup events.

Location: O'Neill Slough North

Location: O'Neill Slough South

Location: Belmont Creek

Location: East Laurel Creek

Join us this year for the Annual California Coastal Cleanup and help with the cleanup with Belmont Creeks to Bay. Together, we can make trash extinct!

Meet at One Twin Pines Lane-in front of City Hall

Saturday, September 20th

(upon sign-in, volunteers will be sent to various locations throughout the city)

For more information or to volunteer~

Please contact Diane Lynn at 650-595-7425 or dlynn@belmont.gov

For groups of 10 or more, RSVP pollutionprevention@co.sanmateo.ca.us

URGENT

Conserve More Water!

Statewide Water Conservation Regulations Took Effect August 1, 2014

The State Water Resources Control Board (SWRCB) implemented emergency water conservation regulations* *prohibiting the following activities:*

- ❌ Landscape irrigation that causes runoff such that water flows onto adjacent properties, non-irrigated areas, private and public walkways, roadways, parking lots, or structures.
- ❌ The washing of automobiles, trucks, trailers, boats, and other types of mobile equipment, except where the hose is fitted with a positive shut-off nozzle or other device so that water is not dispensed when not in use.
- ❌ Use of running water to clean driveways, sidewalks, patios, parking areas, and other paved or hard surfaces.
- ❌ Operation of a fountain or other decorative water feature, except where the water is part of a recirculating system.

* These regulations remain in effect for 270 days unless the SWRCB rescinds or renews them, and authorize agencies to issue fines up to \$500 for each day in which a violation occurs.

Additional restrictions could be implemented as the MPWD's Water Shortage Contingency Plan is further considered and discussed by the Board of Directors. MPWD Board meetings are the fourth Thursday of each month at 6:30 p.m. at 3 Dairy Lane in Belmont, CA. MPWD's water conservation resources, including information about rebate programs, are available at www.MidPeninsulaWater.org/conservation.

We appreciate your cooperation with these statewide regulations, and if you notice a prohibited activity in your neighborhood, please kindly remind your neighbor.

► *If we all work together, we can save even more water!*

Please contact us with any questions: mpwd@midpeninsulawater.org **650.591.8941**

For more about the SWRCB's conservation regulations, please visit www.MidPeninsulaWater.org/SWRCB-FAQs

NOTICE

Construction, Installation and Maintenance: Aug. 16 to Aug. 22, 2014

Construction

There are no major construction projects at this time.

Installation

Communications Based Overlay Signal System (CBOSS) Positive Train Control (PTC) Project

The CBOSS PTC Project is an advanced signal system that will equip the corridor and the trains with federally-mandated safety technology and will increase system capacity to help accommodate future ridership demand.

The project will monitor and, if necessary, control train movement in the event of human error. This will increase safety by:

- Eliminating the risk of train-to-train collisions.
- Reducing risk of potential derailments by enforcing speed limits.
- Providing additional safety for railroad workers on the tracks.
- Improving grade crossing performance to reduce gate downtime and improve local traffic circulation.

The CBOSS PTC Project is also a key component of the Caltrain Modernization Program, which will electrify the Caltrain Corridor by 2019. An electrified Caltrain will be cleaner, quieter, and will upgrade the system to provide faster and/or more frequent service to more stations and more riders.

To implement the project, at various locations, Caltrain will be identifying utilities, digging a small trench and/or boring close to the tracks to install a fiber optic cable. In order to maintain daytime train service, Caltrain will be performing some of this work at night.

San Mateo

Day work will occur August 18 – August 22 from 7 a.m. to 5 p.m. to prepare the site for the installation of a base station. Crews will work as quietly as possible.

Belmont, San Carlos and Redwood City (north of the Dumbarton Spur)

Day work will occur August 18 – August 22 from 7 a.m. to 5 p.m. to identify utility lines. Crews will work as quietly as possible.

Night work will also occur August 17 – August 21 from 8 p.m. to 6 a.m. Crews will be boring and/or digging a small trench to install conduit for fiber optic cable. Lights will be used in the area to help provide visibility. Neighbors may experience some minor installation noise during this time. Crews will work as quietly as possible.

Unincorporated San Mateo County, Palo Alto and Sunnyvale

Day work will occur August 18 – August 22 from 7 a.m. to 5 p.m. to install and test fiber optic cable. Crews will also prepare the site for the installation of a base station. Crews will work as quietly as possible.

Redwood City (south of the Dumbarton Spur), Atherton, Menlo Park, Mountain View, Santa Clara and San Jose

Day work will occur August 18 – August 22 from 7 a.m. to 5 p.m. to install and test fiber optic cable. Crews will work as quietly as possible.

For more information, please call the dedicated outreach line at 650.508.6499; visit the website at www.caltrain.com/CBOSSPTC or email caltrainptc@samtrans.com.

Maintenance

Caltrain will perform routine maintenance at several locations next week. To avoid disruptions to service, the work will mainly take place Saturday through Friday from 8 p.m. to 6 a.m. There will be some construction noise but crews will work as quietly as possible. For more information about this type of work, click [here](#).

San Francisco to San Jose

Saturday, Aug. 16, to Friday, Aug. 22, crews will pressure wash and perform janitorial work at Caltrain stations between the San Francisco and Tamien stations.

Atherton to Menlo Park

Sunday, Aug. 17, through Thursday, Aug. 21, crews will replace ties between the Atherton and Menlo Park stations.

Atherton to Mountain View

Monday, Aug. 18, to Thursday, Aug. 21, crews will resurface rail between the Atherton and San Antonio stations.

San Jose

Sunday, Aug. 17, crews will resurface rail at the Diridon station. Monday, Aug. 18, to Wednesday, Aug. 20, crews will resurface, weld and grind rail between the Diridon and Tamien stations.
